DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 9, paragraph 2, filed 30 November 2004, with respect to amended claims 1, 11, 17 and 27 have been fully considered and are persuasive. The previous rejection of these claims has been withdrawn.

Allowable Subject Matter

2. Claims 1-32 are allowed over the Prior Art of record.

3. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the independent claims 1, 11, 17 and 27 is the inclusion of the limitations of an apparatus and/or method of detecting a leak in a fuel dispensing recovery system that recovers vapors/air during refueling of a vehicle and returns the vapors/air to a storage tank *without actively recovering vapor/air* (emphasis added). All of the Prior Art discloses "active" means, such as vapor/air pumps, or means to create negative pressures (i.e. vacuum), to pressurize (positively or negatively) the system to subsequently detect a leak.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
